Figure 1: Screenshot of Grades

Figure 1 displays the screenshot of my grades on canvas. It shows that I was able to follow through with the deadlines set for each assignment/project. I make sure to practice submitting my projects on time because I am scared to mess up my progress and make all my efforts for nothing. In order to do this, I keep the submission deadline on my calendar and was set to remind me first thing in the moment about it to condition myself that I need to finish everything and submit my portfolio before 16:00. This works well with me so I will keep on doing it.
